EMBASSY COLLECTION

Sealy® Posturepedic technology providing maximum comfort, support and durability.

To achieve a truly restful night's sleep your body needs to relax and recover. Sealy® has a heritage of orthopaedic design and are industry leaders in sleep innovation. Patented spring technology is designed to support the body and assist in relieving morning backache.

Fabric Treatments

- High quality fire retardant treated stretch knit fabric.

Reinforced Edge

- Sealy's UniCased® construction locks into the innerspring for great edge-to-edge support.
- Advanced edge support technology minimises lateral movement.

Sense & Respond Technology

- Align Titanium Coil responds with three stages of support.
- Provides reduced surface motion to help achieve a more restful night's sleep.

StayTrue® Comfort

- Rigorous product testing of our foam and pressure relieving layers ensure longer lasting comfort.

Shock Abzzorber® Foundation

- High carbon spring steel to withstand the stresses of commercial use.
- Ensures long-lasting performance and an extended comfort life for the mattress.
